Stargard, West Pomeranian

TECH STACK

- Python 3
- SQLite3/ MySQL / MongoDB
- Apache Airflow
- Django / DRF
- FastAPI
- HTML / CSS
- Git
- Docker
- Linux
- Gitlab CI/CD

SKILLS

- English (B2)
- Problem-solving
- Teamwork
- Adaptability
- Resourcefulness
- Willingness to learn

PERSONAL PROFILE

As an ambitious backend developer with a deep passion for designing elegant architectural solutions, I emphasize creating code based on advanced algorithms and complex data structures. My areas of interest encompass not only reliable, scalable, and flexible cloud solutions but also a focus on effective deployment strategies for applications in production. I am also expanding my skills in cybersecurity to ensure that my innovative projects are not only groundbreaking but also secure.

The driving force behind my work stems from the combination of a passion for technical excellence and effective collaboration skills within a team. Through an innovative approach to design and implementation, my goal is not only to meet but also to exceed client expectations. Ultimately, my aim is to develop software that not only inspires but also serves as a crucial element in business success, always adhering to the industry's best practices.

PROFESSIONAL EXPERIENCE

JUNIOR PYTHON DEVELOPER

MBGI SP. Z O.O. | SEPTEMBER 2022 - CURRENTLY

- Active role in implementing and maintaining solutions based on web scraping and RESTful API.
- Key involvement in a team responsible for implementing trunk-based development, contributing to increased efficiency and rapid delivery of innovative features.
- Responsibilities include DevOps matters, with a particular emphasis on CI/CD practices.
- Actively participating in the migration of projects to the AWS platform, supporting effective delivery of value to clients.
- Implementation of clean-code practices, ensuring high software quality.
- Playing a crucial role in the CI/CD process, enabling efficient collaboration with the team and seamless delivery of the highest-quality product.

PROJECTS

CEPIK APP

https://www.github.com/xwojziarnik/cepik_app

A CRUD application based on data retrieved from the CEPiK API. Developed within a team of developers during the "Python from Scratch" course, utilizing frameworks such as Django.

BOOKR

https://github.com/xwojziarnik/Bookr

An application enabling logged-in users to create, among other things, book reviews. Developed using Django and Django Rest Framework.

WORD PARSER APP /in progress/

https://github.com/daada95/WordParser

A web application for learning with flashcards, with the backend written in FastAPI.

COURSES

PYTHON FROM SCRATCH
SOFTWARE DEVELOPMENT ACADEMY 11.2021 – 06.2022

M001: MONGODB BASICS MONGODB UNIVERSITY 05.2022

AWS CLOUD PRACTITIONER ESSENTIALS
AMAZON WEB SERVICES 19.02.2023

INTRODUCTING TO CYBERSECURITY
CISCO NETWORKING ACADEMY 21.01.2024
